**OC LRI Outage Commitments Inspection
Day 7 (Monday)**

Schedule Change for Exit Meeting

Thursday, Nov 6 will be an On-site Debrief

Monday, Nov-10 will be a Telephonic Exit Meeting, from Region [time to be determined]

Drywell Structural Integrity Issues or Concerns

1) Sand Bed Bay-11 (exterior drywell shell) has a coating defect. Details are discussed in a separate e-mail. Repairs are scheduled to start on Nov 4.

Inspection Progress

- 1) Progress remains Slow. Drywell NDE activities still behind schedule.
- 2) The more significant drywell NDE data will not be available for review in sufficient time to support a Thursday Exit Meeting, and the Bay-11 coating repair is expected to not be complete.
- 3) Paul Kaufman is on-site to complete his ISI inspection, and to assist, as needed.

Today's Inspection Activities

- 1) Reviewed VT-1 and UT examination records for all 10 sand bed bays. One issue, regarding the characterization of the Bay-11 coating defect, is being reviewed.
- 2) Reviewed Bay-11 coating repair plan.

LR Commitment Issues or Concerns

(b)(5)

NJ State Interface

Remains Good. Rich Pinney seems satisfied.
