FACILITY: Duane Arnold Energy Center

SUBJECT: SUMMARY OF PUBLIC LICENSE RENEWAL OVERVIEW AND ENVIRONMENTAL SCOPING MEETINGS RELATED TO THE REVIEW OF THE DUANE ARNOLD ENERGY CENTER LICENSE RENEWAL APPLICATION (TAC NO. MD9770)

The U.S. Nuclear Regulatory Commission (NRC) staff conducted license renewal process overview and environmental scoping meetings for the review of the Duane Arnold Energy Center (DAEC) license renewal application submitted by FPL Energy Duane Arnold, LLC. Two public meetings were conducted on April 22, 2009, at the Hiawatha City Hall, Hiawatha Iowa. Approximately 30 people attended the meetings. The attendees included representatives of the Nuclear Regulatory Commission (NRC), representatives of DAEC, and members of the public.

Three members of the public registered to speak prior to the scoping meetings. One additional member of the public registered to speak before the afternoon meeting began. One comment was received from a member of the public during the afternoon session. This comment primarily focused on the economic advantages of wind energy and technical safety issues associated with operations and the license renewal application. When called, a second member of the public who had registered at the door indicated that he did not wish to submit any comments.

The official transcripts for both meetings and any written comments submitted during the meetings are publicly available at the NRC Public Document Room (PDR), located at One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, or from the NRC's Agencywide Documents Access and Management System (ADAMS). The ADAMS Public Electronic Reading Room is accessible at <http://adamswebsearch.nrc.gov/dologin.htm>. The transcripts for the afternoon and evening meetings are listed under Accession Nos. ML091870099 and ML091870229, respectively.

A copy of the slides used during the NRC's presentation is also available in ADAMS under Accession No. ML091870528.
