Subject: AmerenUE, Callaway Plant, Unit 2  
(NRC Docket No. 52-037)  
Request to Suspend Review of COL Application

Reference: ALNRC 00018, dated April 28, 2009 "Suspension of Efforts to  
Build Proposed Nuclear Power Plant"

By letter dated April 28, 2009 (ALNRC 00018), AmerenUE reported its announcement that it was suspending its efforts to build a nuclear power plant in Missouri. In the same letter, AmerenUE requested that the NRC Staff continue the current activities associated with the NRC Staff's review of the application in Docket 52-037 while AmerenUE reviewed its options associated with the license application for the new nuclear unit at the Callaway site. We pledged to keep you informed of the status of the internal review.

At this time, we have determined that it is in AmerenUE's best interests to suspend the review of the Callaway Plant Unit 2 COL Application and request that the NRC Staff suspend all activities relating to the COLA.

We appreciate the efforts of the NRC Staff throughout its review of the application. I can be reached at 573-676-8617 or [AHeflin@ameren.com](mailto:AHeflin@ameren.com). You may also contact Scott Bond at 573-676-8519 or [SBond2@ameren.com](mailto:SBond2@ameren.com).

Sincerely,

Adam C. Heflin  
Senior Vice President and  
Chief Nuclear Officer
