MEMORANDUM FOR US Nuclear Regulatory Commission (Mr. Keith McConnell),
Washington, DC 20555-0001

SUBJECT: Site Specific Security and Environmental Radiation Monitoring Plans

1. The Installation Management Command (IMCOM) developed a generic security and environmental radiation monitoring plan that is applicable to all affected garrisons for controlling depleted uranium originating from the M101 Spotting Round on Army ranges. The plans are submitted for your review and approval.
2. Also enclosed is the environmental radiation monitoring plans for Schofield Barracks and Pohakuloa Training Area, HI. The generic plans specify the content of IMCOM site specific plans and specify responsibilities for implementing the plan. The Schofield Barracks and Pohakuloa Training Area plans demonstrate how the generic plan will be followed and provide site specific environmental monitoring plans.
3. Point of contact is Mr. Mario A. Owens, Chief, IMCOM Safety. He can be reached at (703) 681-5200 or email: Mario.Owens@us.army.mil.
