MARK N. MAURIELLO
Acting Commissioner

July 8, 2009

United States Nuclear Regulatory Commission
Document Control Desk
Washington, DC 20555

Dear Commissioners:

Subject: Salem Generating Station Units 1 and 2
Docket Nos. 50-272 and 50-311
License Amendment Request S08-06
Relocate Communications, Manipulator Crane, and
Crane Travel Requirements from Technical Specifications

PSEG Nuclear LLC submitted the proposed change to the Salem Technical Specifications by letter to the NRC dated April 9, 2009. The proposed amendment would relocate three (3) technical specification (TS) requirements pertaining to communications during refueling operations (TS 3/4.9.5), manipulator crane operability (TS 3/4.9.6), and crane travel (TS 3/4.9.7) to the Salem Generating Station Technical Requirements Manual.

The BNE has no comments on the proposed change. If you need to discuss this subject further, please contact Elliot Rosenfeld at (609) 984-7548.

Sincerely,

Patrick Mulligan, Manager
Bureau of Nuclear Engineering
