SUBJECT: GARG CONSULTING SERVICES, INC., LICENSE AMENDMENT REQUEST
CONTROL No. 142458, DOCKET No. 03032913, LICENSE No. 06-28785-01

Dear Ms. Johansen:

On June 26, 2008 Garg Consulting Services, Inc. was issued a nuclear material license with Mr. **Paul Goodwin** named as Radiation Safety Officer (RSO) and **Troxler** portable nuclear gauges (model 3430 & 3440) listed as authorized to use nuclear devices.

Due to recent purchasing of another portable nuclear density/moisture gauge device and Internal human resource arrangements, we need to request following amendments to be made to our existing material license:

1) Change RSO personnel from Paul Goodwin to **Zhen Zhou**;

2) Include the following CPN-InstroTek Inc. gauge

Nuclide	Cs-137 and Am-241/Be
Form	Sealed Sources (CPN Model CPN-MC-3)
Possession Limit	1 source not to exceed 10 mCi of Cs-137 and 50 mCi of Am-241/Be
Authorized Use	To be used as a component of CPN Model MC-3 gauge for determination of moisture and density in engineering materials.

Should you have any question, please contact me at (860)563-0582.

Thank you.

Sincerely,

Eugene Chuang, Ph.D., P.E.
