

PMSTPCOL PEmails

From: Muir, Jessie
Sent: Wednesday, July 01, 2009 1:00 PM
To: STPCOL
Cc: Moser, Michelle
Subject: Telecon Summary - 063009 STP Envr Review

Teleconference Summary with STP June 30, 2009, 2:00 PM EST

Participants

Jessie M. Muir	Nuclear Regulatory Commission (NRC)
Michelle Moser	NRC
Nona Diediker	Pacific Northwest National Laboratory (PNNL)
Bev Miller	PNNL
Russell Kiesling	South Texas Project Nuclear Operating Company (STPNOC)
Sandy Dannhardt	STPNOC
Sam Damico	STPNOC
Steve Frantz	Morgan Lewis

Discussion Topics

1. **Electronic Reading Room**

The electronic reading room is now available for use by NRC/PNNL staff. NRC needs to provide STPNOC with a list of names/emails of those who will need to use the reading room. NRC has requested all information currently in the reading rooms be uploaded to the electronic reading room, with the understanding that it will take some effort/time to get all the files uploaded. The alternative siting study will also be made available in the electronic reading room. STPNOC will send an email with details and instructions on how to use the system.

2. **RAIs**

NRC will provide STPNOC an opportunity to review the new dewatering RAI, once OGC has reviewed it.

3. **Status of Corps Interactions**

STPNOC received an email from the Corps about the barge slip and shoreline work and issues related to their current/future permits. STPNOC will have to talk with Corps about work related to the units 3 & 4 licensing effort versus operation of units 1& 2. NRC asked for a copy of their Request for Permit Determination submittal to the Corps but STPNOC stated it was not their policy to copy other agencies on their outgoing letters and that we should request it from the Corps. The NRC said it would do so.

4. **Alternative Site Analysis**

STPNOC went to visit the new alternative sites last week and believe there is good access to both sites. The sites are also visible on Google Earth maps.

5. **GIS Figures**

STPNOC is still working with their contractors to get the requested GIS layers to PNNL.

Jessie M. Muir
