Rich,

Just a couple of quick thoughts on the Oyster Creek Lessons Learned (see below). I apologize if the suggestion is already included/discussed in your Lessons Learned White Paper as I have not had time to completely digest the entire paper yet.

First file is of particular interest and focused on lessons learned. I and my staff will start to work on solution for Cpart conf. later this month but decision makers will need to address issues: DLR (71003 objectives in various phases along with techniques/expectations) and DIRS (owners of the Inspection Manual Chapters, need to deal with results depending on the phase).
