**Re: U.S NRC Radioactive Materials License application control # 143797  
License No: 29-31374-01, Docket No: 030-38055**

Dear Ms. Nguyen:

In response to your letter dated July 10, 2009 please note the following clarification for our radioactive materials License application, control number 143797.

- I. Radiation Safety Officer: Jose Antony
  - a. We hereby commit that Jose Antony will have the full authority to operate as necessary to fulfill his duties as Radiation Safety Officer.
  - b. We here by commit to provide the necessary funds to facilitate the objectives of our radiation safety program and related regulatory requirements.
  - c. Jose Antony will be on site on a monthly basis to audit the radiation safety program. His audit will include performing QC on all associated equipments, on the hot lab equipment, reviewing dosimetry reports, reviewing and signing off on all paperwork, giving radiation safety training, etc. This facility is operated only one day per week. Therefore he will be on site long enough to perform all duties (minimum of 8 hours per month). If he finds any safety concerns, he will come back out to follow up on any outstanding items, or will follow up with the in-house representative. He will be available via phone twenty four hours and seven days a week. He is currently supporting only one NRC licensee (Garden State Heart Care center, NJ), which operates only one day per week. Mr. Antony will be relived from his responsibilities from this facility by the Month of September. Mr. Antony currently support an agreement state RSO, (Long Island Jewish Medical Center, NY,) where he has full time support staff.
  - d. The senior technologist will be our in-house representative providing services and communicating with the RSO at times.
  - e. Jose Antony will always be available by phone to respond to questions or operational issues that arise during the conduct of our radiation safety
