Peter B. Lyons

Commissioner

U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Dear Commissioner Lyons,

To save the earth and many species:

Please immediately clear the way for fission energy start-ups.

Please immediately lower the barriers at the Nuclear Regulatory Commission for the approval of new nuclear reactors, especially the new small ones.

In particular, please immediately drop the requirement that the commission be reimbursed for reconsidering new fission reactor designs.

Give fossil fuels some competition. All that you have to do is tell the President, then do it. Keep it simple.

Thank you for your attention.

Sincerely Yours,

Mike Starry ★
