July 21, 2009

Subject: Chapter 2 Safety Evaluation Report with Open Items Proprietary Review

Westinghouse has reviewed Chapter 2 of the Safety Evaluation Report (SER) with Open Items and has determined that no proprietary information is included in either SER. The review copy of Chapter 2 Safety Evaluation Report with Open Items was enclosed with an NRC letter to Robert Sisk from Eileen M. McKenna, dated July 9, 2009. The information discussed in the SERs is nonproprietary in nature and therefore no revisions are required prior to placing the SER in the public document room.

Comments and questions resulting from the review of the SER by Westinghouse will be provided in separate correspondence. The schedule for response to the open items and confirmatory items will also be provided in separate correspondence.

Please let me know if you have any questions or need anything else. Thank you.

Very truly yours,

A handwritten signature in black ink, appearing to read 'D. A. Lindgren / FOR', written over the typed name of Robert Sisk.
