Subject: FW: Fermi COL information

Morning Jerry,
Here's the e-mail I sent to Chandu yesterday with Dan Barss's input on Chandu's reply.

Chandu,

See 10 CFR 50.33(g), also see RG 1.206, page C.I.13-9. I am not sure how we overlooked the Ohio ingestion pathway EPZ plan. However, the requirement is clear, and has been there for a while.

Dan

Nobody asked for 50-mile EPZ before. Talk with your management and if appropriate we will have to ask RAIs. During acceptance review, we made a big deal about the latest version. How did we miss EP from Ohio? I suspect there is some miscommunication. I am not aware of 50 miles EPZ.

Chandu

Subject: Fermi COL information

Hi Chandu,
I have been assigned as the EP Fermi COL reviewer. During my initial review of the Fermi application I noticed there was no radiological emergency response plan or letter of certification for the state of Ohio which is in the 50-mile EPZ for Fermi. What is the appropriate method to get this information added/supplemented to the application so it is complete?
