Jeryll:

Thanks for the redirect. I've corrected this instruction below.

Again, thanks for your diligence!

Mike

Subject: RE: SUNSI Review and Release of Bell Bend Application Files for Public Availability PartI Files

Attn: Jeryll Dorsey

The following MLs are duplicates of those issued under Revision 0 and have been determined to be suitable for public availability and release as such. These files may be made publically available.

ML090710591
ML090710592
ML090710593
ML090710594
ML090710585
ML090710586

The following files match those identified in **Revision 0**, which were determined during SUNSI review of to contain some sensitive- government controlled information and will remain non-public.

ML090710587
ML090710588
ML090710589
ML090710590.

NRC-Redacted files were subsequently added to those packages (by the NRC) in Revision 0.

The following NRC-Redacted files will need to be added to the associated package, ML090710595, to complete this submission 4 file set.

ML083010191
ML083010192
ML083010194
ML083010197

Finally, you are correct. The files in Part 5D were reviewed and determined to require withholding for PII and as government files for which no public release has been received at this time.

Thanks for your diligence.

Subject: RE: Re: SUNSI Review and Release of Bell Bend Application Files for Public Availability

A total of 61 documents and 3 packages were set for public release (I did not release packages containing only one document - this is contrary to policy). In addition to the other Submission 4, Part 05 subfolders, I did not release documents in subfolder Part 05D. Also, documents in Part 11I appear to be sensitive and already have been identified as such; therefore, I did not release those documents. Yesterday, I left you a phone message with a clarifying question, but that is now moot. - Jeryll Dorsey, ADAMS Support Center

Subject: Re: SUNSI Review and Release of Bell Bend Application Files for Public Availability

A single file set (Submission 4) is presently in the ADAMS Main Library under "Licensing Electronic Submissions/ PPL - Bell Bend."

All packages and files may now be profiled "Publically Available" **with the following exceptions:**

- All Files in the Part 05 subfolders labeled Part 05A, 05B, and 05C (Sensitive-government controlled, Category A.6)
- All files in Part 09 or to be marked "non-public" (Sensitive-proprietary, Category A.4)

All of the above exceptions are to be marked [as-indicated](#).

This concludes SUNSI review and disposition instructions for the Bell Bend Application files presently located in this directory.
