Amy:  
Thanks for looking into it. I will check out the PSU site.  
Dick

Dick,

I checked with our folks and with DEP. The Corps and DEP had nothing on file. DEP suggested you try a couple of different web sites:

[www.pasda.psu.edu](http://www.pasda.psu.edu) This website has a LiDAR link (LiDAR gives you digital elevation). DEP has used LiDAR in the past for cross-sectional views. This Corps office used PASDA a lot for aerials but I do not know about cross sections. PASDA is based on info from the PA DCNR (PA Department of Conservation and Natural Resources. That may also be a good website.

[www.dcnr.state.pa.us](http://www.dcnr.state.pa.us) I have a call into DCNR to see if they can point me in the right direction on their website. When I get back from them, I'll let you know.

I have no contact for FEMA, but DEP suggested you contact them as well.

Not much help on this end. Sorry! If I find out more, I'll let you know.

Thanks,  
Amy Elliott

Amy,

Tony passed this along to me and I checked with our H&H folks and Philly District (who did the Flood Warning System). No sections are available. Limited checks of water depths were made for Flood Warning but nothing really usable.

Sorry,

Barry
