LICENSEE: UNITED STATES ADVANCED PRESSURIZED WATER REACTOR DESIGN CENTERED WORKING GROUP

FACILITY: COMANCHE PEAK NUCLEAR POWER PLANT

SUBJECT: SUMMARY OF THE JULY 16, 2009, PUBLIC MEETING BETWEEN THE U.S. NUCLEAR REGULATORY COMMISSION AND UNITED STATES ADVANCED PRESSURIZED WATER REACTOR DESIGN CENTERED WORKING GROUP TO DISCUSS THE COMBINED LICENSE HOLDER ITEMS DESCRIBED IN PART 2 OF THE FINAL SAFETY ANALYSIS REPORT, CHAPTER 1 OF THE COMBINED LICENSE APPLICATION

On July 16, 2009, a Category 2 public meeting was held between the U.S. Nuclear Regulatory Commission (NRC) and members of the United States Advanced Pressurized Water Reactor (US-APWR) Design Centered Working Group (DCWG) at The Navy League Building at 2300 Wilson Boulevard, Arlington, Virginia. The purpose of this meeting was to briefly discuss the Combined License (COL) Holder Items described in Part 2 of the Final Safety Analysis Report (FSAR), Chapter 1 of the COL application. Enclosure 1 lists the meeting attendees.

US-APWR DCWG provided two handouts that listed all of the currently defined COL information items in the US-APWR Design Control Document (DCD) and the COL application. These handouts categorized the COL information items into either a "COL Applicant Item" or "COL Holder Item" (Enclosures 2 and 3). Enclosures 2 and 3 can be found in the Agencywide Documents Access and Management System (ADAMS) under accession numbers ML092080358 and ML092080355, respectively.

The US-APWR DCWG had requested this public meeting since the NRC staff had expressed a concern about the number of COL Holder Items in the COL application. The US-APWR DCWG wanted to present to the NRC staff its plans for reducing the number of COL Holder Items. The US-APWR DCWG opened the meeting by giving a presentation on how the upcoming revisions to the US-APWR DCD and Reference COL Application FSAR would reduce the number of COL information and holder items. The presentation went into great detail over what kind of changes would occur and provided examples for how these changes could be identified by the NRC staff.

After the presentation was given, US-APWR DCWG opened the floor to NRC employees to discuss any questions they might have on the subject. The NRC staff used this opportunity to discuss the specific changes to the various COL and DCD chapters.

This was a Category 2 public meeting. The public was invited to participate in this meeting by providing comments and asking questions throughout the meeting. However, there were no members of the public present at this meeting.
