Hi Joseph,

Quick question for you...

The OIG is in the process of starting an audit on our Electronic Submissions process. Specifically, we're looking to check the efficiency of NRC's system of licensees electronically submitting their combined license applications. We were hoping to speak with a contact from each of the reactor sites that have submitted an application over the past two years.

Since you're the Safety Project Manager for Bellefonte, I was wondering if you could give me the contact info for someone over there whom I can speak with - someone responsible for submitting the COL application to NRC. We just want to do a short phone interview asking how well the system worked, etc.

Thanks for your help!

-Mike
