Subject: RE: Update Conference Call with USACE

All,

Can we do this call sometime during the week of August 31. Kirk LaGory and I are both open that week. Nothing before that works for both of us.

Thanks,
Steve

Please note new fax number.

Subject: RE: Update Conference Call

Craig,

I hate to tell you this, but Kirk and I are having trouble coming up with dates that work for both of us. As mentioned before, you and Randy are out the week of August 3, Kirk is out the week of August 10, and I just remembered that I am out the week of August 17. I am assuming the call could take as long as 2 hours, considering my suggestion to Randy earlier today that we should also discuss the site layout modifications and the resulting reductions in the wetland impacts.

I am working with Kirk to come up with some dates. There is a very small chance that Kirk might be able to participate sometime during the week of August 10, but even then only within one or more limited time windows. I hate to let things go out this far, but we are also looking at the weeks of August 24 and August 31. Hopefully, we can find something that will work for everybody. This is just a bad time of the year for getting a large group together.

I'll get back to you with some possible dates/times very soon. I apologize for the inconvenience.

Thanks,
Steve Lemont

Steve,

Both Randy and I will be unavailable the first week of August, we can try for the week of August 17, preferably the 17th or 18th.

Subject: RE: Update Conference Call

Craig,

I need for Kirk LaGory of Argonne to participate in this conference call, but he is unavailable the week of August 10. Can we have this call the week before or the week after?

Thanks,

Steve Lemont

Subject: Update Conference Call

Everyone,

I'd like to have a conference call sometime the week of August 10 to discuss the approach that is being taken to answer the two Fermi 3 USACE RAIs. Please provide some days and time that will work.
