MEMORANDUM TO: Branch Chiefs
Division of Site and Environmental Reviews
Office of New Reactors

FROM: Scott Flanders, Director */RA Niles Chokshi for/*
Division of Site and Environmental Reviews
Office of New Reactors

SUBJECT: GUIDANCE FOR PERFORMING CLEAN AIR ACT
CONFORMITY DETERMINATIONS FOR NEW REACTOR
LICENSING FOR USE AND COMMENT

Enclosed is the guidance issued for the staff to perform Clean Air Act Conformity Determinations for new reactor licensing (limited work authorizations and combined licenses). This guidance is to be made publicly available in the Agencywide Document Access and Management System (ADAMS). The Environmental and Technical Support Branch will update NUREG 1555 Section 2.7, Meteorology and Air Quality with a reference to this guidance and conduct training on the conformity process at the appropriate branch meetings. Generally, the contractors for the environmental review will perform the analysis for the conformity determination. The Siting and Accident Analysis Branch will review the analysis. The environmental project manager will issue the draft conformity determination for comments and ensure that the comments are addressed and a final conformity determination is issued. The Environmental Protection Agency may revise the regulations for performing conformity determinations. If the regulations are revised then this guidance will be revised as needed.

Enclosure: As stated
