Hi Mike,

Could you please confirm if the following two entries (from May 15, 2009) letter are accurate?

From LRA Table 3.3.2-18-IP2

Valve body	Pressure boundary	Gray cast iron	Air - indoor (int)	None	None	V.A-19 (E-29)	3.2.1-32
------------	-------------------	----------------	--------------------	------	------	---------------	----------

From LRA Table 3.3.2-18-IP3

Valve body	Pressure boundary	Gray cast iron	Air - indoor (int)	Loss of material	External Surfaces Monitoring	V.A-19 (E-29)	3.2.1-32
------------	-------------------	----------------	--------------------	------------------	------------------------------	---------------	----------

I would think that the two entries should be the same, but am not sure which one Entergy meant to use.

Also, don't forget to ask about the changes to LRA Section 2.3.3.12 for IP2 regarding the deletion of the CO2 references.

Thanks,
Kim
