Discussion Topics

1. **RAIs**

STPNOC has the RAIs and is working on them.

2. **Alternatives Site Study**

STPNOC discussed the current status of their new alternative site analysis. STPNOC has gone through two tiers of screening candidate sites. However, the final screening has not occurred at this time for STPNOC to make a definitive statement regarding the final alternative sites selected.

3. **Status of Corps' Determinations**

STPNOC is still working with the Corps to get the determination on the wetlands and ditches. Staff asked if STPNOC would be generating a new wetlands report based on the Corps' determination. STPNOC said it would provide a water course map based on the Corps decision to the NRC. STPNOC would ensure any necessary changes would be made in Revision 3 of the COLA ER.
