CHAPTER 17
QUALITY ASSURANCE

17.1 QUALITY ASSURANCE DURING THE DESIGN AND
CONSTRUCTION PHASES

This **section** of the referenced DCD is incorporated by reference with the following departures and/or supplements.

Replace the information in **DCD Section 17.1** with the following information.

VCS SUP 17.1-1 South Carolina Electric & Gas (SCE&G) is responsible for the establishment and execution of quality assurance program requirements during the design and construction phases of V.C. Summer Nuclear Station Units 2 & 3. SCE&G may delegate and has delegated to others, such as NuStart Energy Development, LLC, Westinghouse Electric Company, and Bechtel Power Corporation, the work of establishing and executing the quality assurance program, or any parts thereof, but retains responsibility for the quality assurance program.

Effective during COL application development, through and until COL issuance, the NuStart Energy Development, LLC (NuStart) Quality Assurance Plan (**Reference 201**), the Westinghouse Electric Company Quality Management System (**DCD Section 17.6**) and Bechtel Power Corporation Nuclear Quality Assurance Manual (**Reference 205**) define the QA program requirements for design activities. Safety-related construction activities at SCE&G are not planned before the COL is issued.

NuStart was created by multiple utilities and, as such, is comprised of multiple member utilities to include SCE&G. NuStart's purpose is two-fold of which the first is demonstrating the licensing process defined by 10 CFR Part 52. The second purpose is to work with reactor vendors in completing the engineering work for the standardized plant designs.

Bechtel Power Corporation was contracted by SCE&G to develop the V. C. Summer Nuclear Station Units 2 & 3 COL application. This included the process of collection, review and analysis of specific data for site characterization and was controlled under the Bechtel Power Corporation Quality Assurance Manual (**Reference 205**).

SCE&G maintains oversight of the COL application development as well as design and construction activities under its existing 10 CFR Part 50, Appendix B, program as described in the NRC approved SCE&G V.C. Summer Nuclear Station Unit 1 "Operational Quality Assurance Plan" (**Reference 206**). The "Operational Quality Assurance Plan" (**Reference 206**) is supplemented, in part, by the SCE&G "New Nuclear Deployment Quality Assurance Plan" (**Reference 204**). The "New Nuclear Deployment Quality Assurance Plan" (**Reference 204**) serves as an interfacing document between the work activities of the New Nuclear Deployment organization and the "Operational Quality Assurance Plan" (**Reference 206**). It

V. C. Summer Nuclear Station, Units 2 and 3
COL Application
Part 2, FSAR

assures that the proper administrative controls and the quality of activities related to the procurement of services, equipment, oversight of construction/manufacturing, and licensing activities being performed within the New Nuclear Deployment organization conform to the applicable requirements of 10 CFR 50, Appendix B. These plans provide the necessary quality assurance guidance for oversight of site characterization activities and COL application content providers. SCE&G maintains this oversight through the review and approval of the NuStart Quality Assurance Plan ([Reference 201](#)) and industry standard COL application sections as well as conducting audits/surveillances of Bechtel activities, and providing input to the COL application development, including, but not limited to, review of COL application content.

Implementation of the applicable portions of the “Quality Assurance Program Description” (QAPD) discussed in [Section 17.5](#) begins at COL issuance. The program establishes the quality assurance program requirements for the remaining portion of the design and construction phases and for operations; full implementation of the operations related requirements will be no later than as indicated in FSAR [Table 13.4-201](#).

STD DEP 1.1-1 17.5 QUALITY ASSURANCE PROGRAM DESCRIPTION - NEW LICENSE APPLICANTS

VCS COL 17.5-1 The Quality Assurance Program in place during the design, construction, and
STD COL 17.5-2 operations phases is described in the QAPD, which is maintained as a separate
STD COL 17.5-8 document. This QAPD is based on NEI 06-14A, "Quality Assurance Program
Description," which is currently under review by the NRC ([Reference 207](#)).

VCS COL 17.5-1 The QAPD is the SCE&G VCSNS Units 2 and 3 Quality Assurance Program
Description.

VCS COL 17.5-1
STD COL 17.5-2 [Table 13.4-201](#) provides milestones for operational quality assurance program
STD COL 17.5-4 implementation.
STD COL 17.5-8

VCS COL 17.5-1 The Quality Assurance Program in place prior to implementation of the QAPD is
described in [Section 17.1](#).

V. C. Summer Nuclear Station, Units 2 and 3
COL Application
Part 2, FSAR

STD DEP 1.1-1 17.6 MAINTENANCE RULE PROGRAM

STD SUP 17.6-1 This section incorporates by reference NEI 07-02A, “Generic FSAR Template Guidance for Maintenance Rule Program Description for Plants Licensed Under 10 CFR Part 52,” with the following supplemental information. See [Table 1.6-201](#).

[Table 13.4-201](#) provides milestones for maintenance rule program implementation.

The text of the template provided in NEI 07-02A is generically numbered as “17.X.” When the template is incorporated by reference into this FSAR, section numbering is changed from “17.X” to “17.6.”

STD SUP 17.6-1 Descriptions of the programs listed in Subsection 17.6.3 of NEI 07-02A are provided in the following FSAR chapters/sections:

The maintenance rule program ([Section 17.6](#))

The quality assurance program ([Section 17.5](#))

Inservice inspection program ([Sections 5.2](#) and [6.6](#))

Inservice testing program ([Section 3.9](#))

The technical specifications surveillance test program ([Chapter 16](#))

STD DEP 1.1-1 17.7 COMBINED LICENSE INFORMATION ITEMS

Section 17.5 of the referenced DCD is incorporated by reference with the following departures and/or supplements.

VCS COL 17.5-1 This COL Item is addressed in **Sections 17.1** and **17.5**.

STD COL 17.5-2 This COL Item is addressed in **Section 17.5**.

STD COL 17.5-4 This COL Item is addressed in **Section 17.5**.

STD COL 17.5-8 This COL Item is addressed in **Section 17.5**.
