OFFICE OF POLICY,  
ECONOMICS, AND INNOVATION

Mr. Bruce Turner  
Nuclear Environmental Supervisor  
Comanche Peak Steam Electric Station  
P. O. Box 1002  
Glen Rose, Texas 76043

Dear Mr. Turner:

Congratulations! Your facility has been accepted into the U.S. Environmental Protection Agency's National Environmental Performance Track program. As a new member of a high-quality group of facilities promoting environmental protection across the country, you are being recognized for your impressive record of environmental management and performance, and for your commitment to continuous environmental improvement.

Performance Track is an important public-private partnership that encourages environmental excellence, involves communities in environmental protection, and focuses on measurable results. Performance Track members demonstrate in their daily business operations that economic prosperity and environmental protection can go hand in hand. Your participation in this voluntary partnership assists EPA in pursuing our goal of making America's air cleaner, its water purer, and its land better protected for future generations.

You and your fellow employees can take pride in the part you have played in making your Performance Track membership a reality. I recognize that true environmental protection is a team effort, and every small action taken by your facility team contributes both to business success and to broader goals of improving the quality of life in the workplace and the community in which you live.

I am delighted to welcome you as a member of the National Environmental Performance Track.

Sincerely yours,

A handwritten signature in black ink, appearing to read "Brian F. Mannix".

Brian F. Mannix
