Classification: UNCLASSIFIED  
Caveats: NONE

Yolande: We will get you a copy of the slides during the afternoon on Monday, August 24th.

The ERM SOP is the Environmental Radiation Monitoring (ERM) Standard Operating Procedure (SOP). One of the main objectives for the site characterization is to "Provide the basis for modifying the current monitoring program within the next 2 to 3 years..." For the meeting, we wanted to see what their thoughts are (if they have any) concerning the revisions. Since we only plan to talk for 15 minutes, we probably won't have more than 1 or 2 slides.

Paul

Monday August 24th would work better for me because on August 25th I will be out of the office hosting another major inter-agency government meeting.

Also could you clarify the ERM SOP referenced in the agenda.

Thanks.

Caveats: NONE

Yolande: Revised agenda schedule looks good for us. We will provide a copy of the presentation slides to you by Tuesday, August 25.2009. Let me know if that is an issue.

Paul

Hi Paul,

I tweaked the agenda a little bit, let me know what you think.

Hi Paul,

Thanks for the meeting agenda .

Two minor points.

I think I want to expand the question period for the public to 30 mins instead of 15 minutes Could you spell out what is the "Revised ERM SOP"

Also could you provide electronic version of the slides prior to the meeting, so that I have an opportunity to distribute to individuals of the public who intend to participate via teleconference.

Thanks a bunch. The agenda is quite detailed and NRC look forward to discussing your preliminary findings and what our next steps should be.
