Ms. Tammy Morin
Licensing Manager
Holtec International

SUBJECT: INTERIM CORRECTIVE ACTION – EA-09-0190

Dear Ms. Morin:

Thank you for your prompt response to our letter of August 5, 2009, outlining your interim corrective actions. The parameters outlined in your letter are consistent with our discussion early today; we agree that thermal and containment safety are the appropriate factors to be considered in your 10 CFR 72.48 evaluation. The staff will review your follow-up reply and corrective actions when complete. If you have any questions regarding this action, please contact me, David W. Pstrak, or Earl Love at (301) 492-3301.

Your cooperation on this matter is appreciated.

                                        Sincerely,

                                        /RA/

                                        Norma Garcia Santos, Acting Chief
                                        Rules, Inspections, and Operations Branch
                                        Division of Spent Fuel Storage and Transportation
                                        Office of Nuclear Material Safety
                                          and Safeguards

Docket No. 72-1014
