

August 20, 2009

Mr. George Vanderheyden
President and CEO
UniStar Nuclear Energy, LLC
750 E. Pratt Street
Baltimore, MD 21202-3106

SUBJECT: ISSUANCE OF A REVISED ENVIRONMENTAL SCHEDULE FOR THE
COMBINED LICENSE APPLICATION REVIEW FOR THE CALVERT CLIFFS
NUCLEAR POWER PLANT, UNIT 3

Dear Mr. Vanderheyden:

By letter dated January 25, 2008, the U.S. Nuclear Regulatory Commission (NRC) docketed part 1 of a combined license application (COLA) for Calvert Cliffs Nuclear Power Plant, Unit 3 submitted by the Calvert Cliffs 3 Nuclear Project, LLC and UniStar Nuclear Operating Services, LLC (collectively referred to as UniStar). At that time a schedule for the environmental review was established. As stated in the NRC staff's January 16, 2009 letter to UniStar, the NRC delayed the environmental schedule until such time that the staff received sufficient information for the agency to issue a revised schedule.

Since that letter, UniStar has submitted responses to the majority of the remaining request for additional information (RAIs) including a submittal of new alternative site selection process and related Environmental Report (ER) sections on July 17, 2009. The NRC now has sufficient information for the Agency to issue a revised schedule for the environmental review. The revised review schedule reflects tasks for the remaining three phases of the environmental review which are provided in Enclosure 1.

The schedule for completion of Phase 2 to issue a draft EIS (DEIS) includes technical review of the new alternative site information; visits to the new alternative sites; consultation with appropriate Federal, State and local agencies on the new alternative sites; drafting and issuing RAIs related to the new alternative site information; receiving responses to the RAIs; writing the sections for the new alternative sites in the DEIS; a writing session on the preliminary DEIS; review and concurrence of the camera ready DEIS; and finally publication activities.

The schedule assumes technically correct and complete responses within 30 days of receipt to NRC's RAIs on the new alternatives information. For any RAIs that cannot be answered within 30 days, it is expected that an anticipated date of receipt for that information will be provided to the staff within the 30 day period so that the staff can assess how this information will impact the published schedule. In addition, any new and significant changes or additions to the COLA, the Corps and State of Maryland joint permit application, or supporting documentation could impact scheduled completion dates since this is information that could impact staff conclusions in the EIS.

The staff will evaluate this schedule after the comment period on the DEIS has ended. At that point, the staff may establish new milestones in Phases 3 and 4 based on the number and

G. Vanderheyden

- 2 -

complexity of the comments received from other Federal, State and local agencies; members of the public; and other interested stakeholders.

It is the staff's intent to establish a predictable review schedule and a review process that supports identification and resolution of complex issues as early in the review as possible. To that end, the staff intends to interact with UniStar as the review progresses to address issues, schedule details, and potential schedule refinements.

If you have any questions or comments concerning this matter, the environmental project manager for the Calvert Cliffs COL application Ms. Laura Quinn, can be reached at 301-415-2220 or via e-mail address at Laura.Quinn@nrc.gov.

Sincerely,

/RA/

Joseph Colaccino, Chief
EPR Projects Branch
Division of New Reactor Licensing
Office of New Reactors
