STP has agreed (and think it's a great idea) to have a public meeting here at HQ to discuss how they plan to address operational programs (op). I am requesting this meeting to:

1. discuss with STP the draft RAIs related to Chapters 5 and 6.6 that are operational program questions (these belong to Tim) and;
2. during this call, the NRC staff (Tim/Tom/Neil) will have the opportunity to briefly discuss the type of information that they are interested in hearing from STP on OP during this proposed public meeting.

We are looking to have this public meeting the last week of July.

Your attendance is needed and greatly appreciated. Please contact me if you have any questions. And please forward to other STP reviewers that may have OP questions.

Thanks Tekia
