Subject: Status of Reading Room Web Portal for Fermi 3

Randy,

What is the status and timing of getting the subject portal up and running, and can this be accelerated? We need easier access to reading room materials than we currently have at DTE Energy locations (especially at the most important location near Chicago), to facilitate our further review of documents requested in RAIs and determination of exactly what we needed submitted for docketing.

Please let me know.

Thanks,
Steve
