SUBJECT: Entergy Nuclear Operations, Inc.  
Pilgrim Nuclear Power Station  
Docket 50-293  
License No. DPR-35

Notification of Submittal of Pilgrim Refueling Outage (RFO) -17  
In-Service Inspection (ISI) Owners Activity Report (OAR)-1

LETTER NUMBER: 2.09.045

Dear Sir or Madam:

The Pilgrim Nuclear Power Station (Entergy) is in the Fourth In-Service Inspection (ISI) Interval and is subject to the 1998/2000 Addenda of the American Society of Mechanical Engineers (ASME) Code of Record.

The Entergy In-Service Inspection Program incorporates NRC-approved Code Case N-532-4 which requires Entergy to submit to the NRC the ISI Owners Activity Report (OAR-1) for Refueling Outage (RFO)-17 by August 17, 2009 (90-days Post-RFO).

This report is not ready for submittal because difficulties were encountered with the transfer of component data from a retired component part database into a newly installed system for traceability of component information related to the repair and replacement activities. Therefore, Entergy hereby notifies the NRC that the report will be submitted by November 15, 2009. This 90 day extension would allow Entergy to correct the traceability issues in order to execute the NIS-1 and NIS-2 Forms to complete the report. This extension was discussed with the Entergy NRR Project Manager prior to this submittal.

There are no new commitments made in this letter.

A047  
NRR

If you have any questions regarding the information contained in this letter, please contact Pilgrim Licensing Manager, Joseph R. Lynch at (508) 830-8403.

Sincerely,

A handwritten signature in black ink, appearing to read "Stephen J. Bethay", with a small "for" written below it.

Stephen J. Bethay
