Docket No. 52-021 MHI Ref: UAP-HF-09413

Subject: Submittal of the revised US-APWR DCD RAI Tracking Report

With this letter, Mitsubishi Heavy Industries, Ltd. ("MHI") transmits to the U.S. Nuclear Regulatory Commission ("NRC") the technical report "US-APWR DCD RAI Tracking Report, Revision 3." This report includes a table that identifies the impact of each response to the Request for Additional Information ("RAI") relative to the Design Control Document ("DCD") of US-APWR. The report also includes the DCD markups for the RAI responses that impacted the DCD. The report is being submitted electronically in compact disc ("CD").

The US-APWR DCD RAI Tracking Report Revision 3 is being submitted in two versions, each version on a separate compact disc. One version (on CD 1 at Enclosure 1) includes certain information, designated pursuant to Commission guidance as sensitive unclassified non-safeguards information and referred to as security-related information ("SRI"), that is to be withheld from public disclosure under 10 C.F.R. § 2.390. The information that is SRI is identified by brackets. The second version (on CD 2 at Enclosure 2) omits the SRI and is suitable for public disclosure. In the public version on CD 2 (which contains only the public version of the DCD markups), the SRI is replaced by the designation "[Security-Related Information - Withheld under 10 CFR 2.390]."

Please contact Dr. C. Keith Paulson, Senior Technical Manager, Mitsubishi Nuclear Energy Systems, Inc. if the NRC has questions concerning any aspect of this letter. His contact information is provided below.
