Additional information

(NOTE: This will be used as the
Documents Title in ADAMS)

I spoke with Suresh Mody about either sending in the additional information needed to remove the requested material authorization and authorized users from the license. He stated that he will submit the additional information within a week. The following information was requested:

1. You have requested to remove the authorization for 10 CFR 31.11(a) materials from your license. Please confirm one of the following applies:
 - a. These materials have never been possessed at your facility, or
 - b. These materials have been used previously and are not now in use. If this statement applies, you must submit a closeout survey of the area where material identified in 10 CFR 31.11(a) was used and that survey must receive NRC approval in order for the area to be released for unrestricted use.
2. You have requested to remove the authorization for Phosphorus 32 and Strontium 90 sealed sources from your license. Please confirm one of the following statements:
 - a. These materials have never been possessed at your facility, or
 - b. These materials were previously used at your facility but are no longer in use. If this statement applies, please submit the disposal records for the Phosphorus 32 and Strontium 90 sealed sources.
