Subject: Proposed follow up call with GEH

I received a call from Al Kennedy today asking if we could hold a telecon to discuss two issues:

(1) GLE's plan to address cumulative effects of the control rod drive cleaning facility in the ER. It was not included in the version we have.

(2) Discuss any feedback we have from the visit. Christianne and I have conferred and feel that we covered this during the "exit" briefing with GEH. However, we would be interested in hearing any feedback GLE has for NRC as well.

It looks like we are all available on June 9th at 9:00. please confirm that this works for you and I will get back to Al and set up a bridge.
