Subject: RE: NRC Conference Call on August 13

John,

See below.

Discussion Issue for August 13, 2009 Teleconference Meeting

In the US-APWR design certification application proceeding, MHI's issued MUAP-08009 (US-APWR Test Program Description) in response to RAI 27-550, Question 14.02-8. In response to RAI 271-2292, Question 14.02-114 MHI combined and/or deleted several combined license (COL) holder items and modified COL Item 14.2(2) to require the COL applicant to reconcile the site-specific organization, organizational titles, organizational responsibilities, and reporting relationships to be consistent with MUAP-08009. MUAP-08009 seems to be an expanded version of subsection 14AA of the Comanche Peak Nuclear Power Plant, Units 3 & 4 (Comanche Peak) COL application.

Does Luminant plan to address how MHI's RAI responses affect Comanche Peak COL item 14.2(2)? If so, when? Will Luminant's revision of COL item 14.2(2) affect subsection 14AA? If so, when does Luminant plan to address COL item 14.2(2)?

Thank you

Ngola Otto

Subject: NRC Conference Call on August 13

This is to confirm that Luminant and MNES/MHI will be available for a conference call with the NRC on August 13 at 1:00 pm ET (12:00 pm CT) to discuss an item regarding CPNPP 3&4 FSAR 14.2 and MHI TR MUAP-08009. If the NRC can provide any advance description of the issue, it would help us prepare more efficiently for the call.

Thanks,

John Conly
