Dear Mr. Tillman:

This letter refers to the public meeting at the NRC Region II offices on August 18, 2009, during which we discussed matters of mutual interest regarding the inspection and licensing of the Honeywell Metropolis Works facility located in Metropolis, Illinois. The meeting afforded NRC and Honeywell representatives the opportunity to discuss the results of recent assessments that have been completed of your program and your plans for improving plant performance at the Honeywell Metropolis Works facility. It is our view that the meeting was beneficial and provided the NRC confidence in your intent to continue improving your performance and to operate the Metropolis facility safely.

The names of participating attendees at the meeting and a copy of the presentation used by Honeywell are enclosed.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS).
