Nine Mile Point Unit 3 Nuclear Power Plant
Combined License Application Review Schedule

Reference: UniStar Nuclear Energy Letter UN#09-110, from Greg Gibson to Document Control Desk, "Nine Mile Point Unit 3 Combined Operating Licensing Application Review Schedule", dated February 9, 2009 (ML090420500)

On August 11, 2009, UniStar Nuclear Energy (UNE) discussed internal project schedule information with the Nuclear Regulatory Commission (NRC) staff, regarding the latest Combined License Application (COLA) review schedule for the Nine Mile Point Unit 3 Nuclear Power Plant (NMP3) project near Scriba, NY. The purpose of this letter is to confirm the information discussed with the Staff regarding the sequence optimization of the NMP3 COLA review schedule and resources.

As discussed in the referenced letter, we appreciate the NRC optimizing the NMP3 COLA review schedule. Based on the latest information, we have concluded that it would be prudent, and we hereby request that, the NRC finalize the COLA review schedule for the NMP3 Phase 1 COLA review to begin in September 2010.
