Re: License No.: 29-30541-01 *03035255*

Attached you will find the Close Out survey and contamination wipe test performed at our facility after all radioactive materials were removed from the Nuclear Cardiology Lab. All areas are free of contamination and present no risk of radiation exposure. These tests were performed by Mr. J. Oldakowski, MS, DABR of Monmouth Physics Associates. Our new lab has been set up in another area of our office which has been approved by your office previously.

If you have any questions or require any additional information please do not hesitate to contact me at (732) 776-8500.

Sincerely,

Marie Scoles, RN
Office Manager
