Subject: Public Comment on new rules for security of radioactive materials.

NRC:

I am thankful for any attempts you make to tighten security on radioactive materials and their components.

The new rules and their additional security are a good step towards a safer future.

Ideally, nuclear weapons should be universally banned, and waste producing nuclear power plants should be phased out and replaced with safe, renewable energy....I.e. wind, water, solar.

I would also like to see that happen also.

Sincerely,
Kathryn Barnes
