FOIA/PA REQUEST
Case No.: 2009-0260
Date Rec'd: 8-24-09
Specialist: Christian
Related Case: _____

Freedom of Information Act Request Letter 08/21/2009

U.S. Nuclear Regulatory Commission
FOIA/Privacy Officer Mailstop: T-5 F09
Washington, DC 20555-0001

Re: Freedom of Information Act Request

Dear Public Records Officer:

This is a request under the Freedom of Information Act.

I request that a copy of documents containing the following information be provided to me:

Documentation of locations of all NRC-regulated storage facilities in the state of Texas, including name, address, and description of types of waste/amount of waste stored.

Number of fuel rod assemblies stored on site at Comanche Peak Steam Electric, Unit 1 (050-00445) and Unit 2 (050-00446), and South Texas Project, Unit 1 (050-00498) and Unit 2 (050-00499), including the amount of radioactivity present at each location.

If spent fuel assemblies are not stored at these locations, I request information about how and where the spent nuclear fuel generated at these sites is managed.

In order to help to determine my status to assess fees, you should know that I am a representative of the news media working for the San Antonio Current, and this request is made as part of a news gathering process and not for a commercial use.

I request a waiver of all fees for this request. Disclosure of the requested information to me is in the public interest because it is likely to contribute significantly to public understanding of the operations or activities of nuclear power industry in the state and is not primarily in my commercial interest.

Should a fee waiver not be granted, I request to be notified of the anticipated expenses should they exceed \$25 before they are accrued. In the interest of expediency, I further ask that all communication of this request, including acknowledgment of receipt, be made by e-mail.

Thank you for your consideration of this request.

Sincerely,

Greg Harman
