Kathy,

On behalf of Cindy Cardwell, as discussed per our telephone conversation today, attached is the letter for submission of the following Final Texas Regulations for Control of Radiation, Title 25 Texas Administrative Code for your review relating to additional RATS 2007-3:

§289.201, "General Provisions for Radioactive Material"  
§289.202, "Standards for Protection Against Radiation from Radioactive Materials"  
§289.251, "Exemptions, General Licenses, and General License Acknowledgements"  
§289.252, "Licensing of Radioactive Material"  
§289.256, "Medical and Veterinary Use of Radioactive Material"

Included with the attached Submission for Final Regulations letter is the "stepping-stone" table identifying the equivalent TX amendment to NRC's regulations.

In an effort to avoid overloading the email system due to the length of some of these rule files, I am not attaching the final rules but instead providing the following Radiation Control rules web link for accessing the applicable final rules:

[www.dshs.state.tx.us/radiation/rules.shtm](http://www.dshs.state.tx.us/radiation/rules.shtm)

Please call or email me or Cindy at [cindy.cardwell@dshs.state.tx.us](mailto:cindy.cardwell@dshs.state.tx.us) if you have any questions regarding the attached proposed TX Radiation rules.

Thank you,

Monica Perez
