Subject: Request for Extension for Ten Geotechnical Questions

Luminant respectfully requests a due date of 90 days from July 30, 2009 for submittal of the responses to the following ten questions currently on our docket:

2.5.4-1 2.5.4-2 2.5.4-3 2.5.4-4 2.5.4-9 2.5.4-10 2.5.4-17

2.5.2-1 2.5.2-3

2.5.5-1

Luminant believes it would be most effective from a review schedule standpoint to address regulatory guidance brought to our attention during the recent Geology Safety Site Visit, i.e., NRC Interim Staff Guidance COL/DC-ISG-03, "Probabilistic Risk Assessment Information to Support Design Certification and Combined License Applications," issued on June 11, 2008. We understand that the analysis should comply with the guidance in NEI "Project No. 689, White Paper in Support of New Plant Applications," dated June 12, 2009 and specifically the Enclosure entitled "Consistent Site Response SSI Analysis & Evaluation."

If the NRC grants this extension, Luminant will submit the responses on or before October 28, 2009.

If this request will adversely impact the CPNPP 3 & 4 review schedule, please contact me or contact Don Woodlan (254-897-6887, Donald.Woodlan@luminant.com) as soon as possible to discuss the impact.

Thanks,

John Conly
