Tom:

I expect we will review the license transfer application just like a license amendment application. We will do an acceptance review before we proceed with the full review. We don't want to have a piecemeal application, but I believe your approach will work in this instance for the LOC only. We will need the LOC to do the full review.

Ron

**Subject:** Transfer Application Timing

Ron,

U1 feels they can have all their supporting information together late this week, excepting the draft Letter-of-Credit. In the interim, would it be permissible for U1 to simply state that the pending draft LOC will identically match the language in the existing LOC (except for changes in the parent applicant name and the name of the bank, of course)? The draft LOC would then be submitted as soon as available. If this approach would work, we probably could submit the application next week. I will still send the letter of intent re. the transfer by tomorrow.

Thanks,

Tom
