Dear Dr. Wierzbicki:

This refers to your letter dated May 28, 2009, requesting an amendment to add a mobile nuclear medicine services to your NRC license. We need additional information to complete our review as described in the enclosed "Request for Additional Information". We will void your request at this time to allow you time to gather the additional information for your license amendment. We will void your request without prejudice to resubmission.

When you resubmit your request please state that the resubmission is additional information to **Voided Control 318230**. We will resume our review upon receipt of your response. Please note, that a "voided request" is an administrative procedure that puts your amendment request "on hold" until you reactive it by a written response. The "voided request" is regarded as "good" because it gives you time to prepare a quality response.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,
