Robert F. Thompson, M.D.  
Radiation Safety Officer  
Center Point Medical Center of Ind., LLC.  
d/b/a Centerpoint Medical Center  
19600 East 39<sup>th</sup> Street  
Independence, MO 64057

Dear Dr. Thompson:

Enclosed is Amendment No. 52 to your NRC Material License No. 24-18655-01 in accordance with your request dated July 20, 2009. Please note that the changes made to your license are printed in **bold font**.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we can provide appropriate corrections and answers.

Please note that Dr. McKinney is not listed for materials in 10 CFR 35.300 at his time. Page 1 of form 313A (AUT) indicates that Dr. McKinney is Board certified in Radiation Oncology. Dr. McKinney's board certificate provided in your amendment request shows that he is board certified in Diagnostic Radiology. Please review the documents you provided and clarify this information. Also, please provide the NRC or Agreement State license that shows Dr. Johnson's (preceptor for Dr. McKinney) authorization for 10 CFR 35.300 material.

Please also note that your NRC license does not authorize 31.11 material, therefore, Drs. McKinney, Avva, and Cox were not listed for 31.11 material. If you wish to pursue this, please provide an amendment requesting that 31.11 material be added to your NRC license.

You will be periodically inspected by NRC. Failure to conduct your program in accordance with NRC regulations, license conditions, and representations made in your license application and supplemental correspondence with NRC will result in enforcement action against you. This could include issuance of a notice of violation, or imposition of a civil penalty, or an order suspending, modifying or revoking your license as specified in the General Statement of Policy and Procedure for NRC Enforcement Actions. Since serious consequences to employees and the public can result from failure to comply with NRC requirements, prompt and vigorous enforcement action will be taken when dealing with licensees who do not achieve the necessary meticulous attention to detail and the high standard of compliance which NRC expects of its licensees.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system

(ADAMS). The NRC's document system is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

  
James R. Mullauer, M.H.S.  
Health Physicist  
Materials Licensing Branch
