Dear Mr. Coffey:

On August 4, 2009, a Nuclear Regulatory Commission (NRC) inspector conducted a routine inspection at your Laurel, Delaware facility, Inspection Report (IR) 030-36973/09-08 (Form 591M Part 1). The inspection results were discussed with Willie Regits, of your staff during a final telephonic exit briefing conducted on August 13, 2009.

This inspection was an examination of activities conducted under your license as they relate to radiation safety and to compliance with the Commission's rules and regulations and with the conditions of your license. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, independent measurements, and observation of activities in progress. Within the scope of this inspection no violations of NRC requirements were identified; therefore, no response to this letter or the enclosed NRC Form 591M is required.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>
