Dear Mr. Smith:

This is to confirm our telephone conversation on August 28, 2009 with Mr. Robert Mitrow in which we discussed the information we need to continue review of your application dated, June 18, 2009.

The items discussed are specified below:

1. Your application does not contain the information needed to support your request to renew your portable gauge license. Please resubmit your application using the guidance in NUREG-1556, Volume 1, Revision 1, *Consolidated Guidance About Materials Licenses: Program Specific Guidance About Portable Gauge Licenses* (NUREG-1556). This information can also be found on our website at:

<http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v1/r1/sr1556v1r1.pdf>.

Please print and complete Appendices A and B from this NUREG. In addition, please provide a complete portable gauge inventory. This inventory should identify each gauge by make and model number.

2. Also, please provide your business facsimile number and email address for our records.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Medical, Academic, and Industrial Uses of Nuclear Material**; then **Regulations, Guidance, and Communications**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 7:00 a.m. to 6:30 p.m. EST, Monday through Friday (except Federal holidays).

We will continue our review upon receipt of this information. Please reply to my attention at the Region I Office and refer to Mail Control No. 143843. If you have any technical questions regarding this deficiency letter, please call Laurie Kauffman at (610) 337-5323.
