License Application (COLA) - Docket Numbers 52-027 and 52-028
Supplemental Response to NRC Request for Additional Information
(RAI) to Provide HEC-RAS Data Files

The enclosed CD provides the input and output HEC-RAS data files utilized in support of the development of FSAR Section 2.4 of the VCSNS Units 2 and 3 COLA.

The information contained in the files on the enclosed CD is provided to support the NRC's review of the VCSNS Units 2 and 3 COLA, but does not comply with the requirements for electronic submissions as stated in NRC Guidance Document, "Guidance for Electronic Submissions to the NRC," dated October 29, 2008. The NRC staff requested that these files be provided in their native electronic format as required for utilization in the software employed to support the COLA review. Formatting the data to comply with the guidance on electronic submissions would not serve the request to provide these files in their native formats.

Should you have any questions, please contact Mr. Al Paglia by telephone at (803) 345-4191, or by email at apaglia@scana.com.

I declare under penalty of perjury that the foregoing is true and correct.

Executed on this 25th day of August, 2009.

Sincerely,

Ronald B. Clary
