Re: Transfer of material license to the State of New Jersey

Dear Donna Janda,

It is the intent of my company to allow the NRC materials license that we now hold to be transferred to the State of New Jersey, Bureau of Environmental Radiation.

I have read the letter from Mr. Kinneman, director of Nuclear Materials Safety, and concluded that none of our activities require dual licensing.

Please contact me at the QC Department numbers, or directly by cell at 732-522-0889, if there is any further information or action required of me.

Thank you.
Sincerely,

Edward E. Acquaro
Stavola Asphalt Company
