Re: Response to the NRC request for additional information dated August 21, 2009.
License No. 13-26305-01, Control No. 318251

Dear Mr. Macatangay,

I have reviewed your request for additional information and have prepared the following responses:

Request 1: Please confirm that the mailing address is at 820 Monroe, NW, Suite 333C, Grand Rapids, MI and that use or storage locations are at 1944 N. Griffith Boulevard, Unit A, Griffith, Indiana, 4085 Meghan Beeler Ct., South Bend, Indiana, and at temporary job sites.

Response 1: The mailing address for the Radiation Safety Officer, Jeff Blum, is in fact the 820 Monroe, NW, Suite 333C, Grand Rapids, MI, 49503. The locations at 1944 N. Griffith Boulevard and 4085 Meghan Beeler Ct are the storage locations for the portable nuclear density gauges.

Request 2: Please confirm that you want to add CPN 500 Series portable gauges to your license.

Response 2: Weaver Boos requests that the license be amended to allow the use of CPN MC Series portable gauges. The request to add the CPN 500 series was incorrect.

August 26, 2009

Page 2 of 2

Request 3: You requested that License Condition 13, leak test frequency, be changed to "intervals not to exceed 12-months." Per review of your license, the leak test frequency was not specified but referenced the Sealed Source and Device Registration. Per our discussion on August 20 & 21, 2009, please confirm that this request is withdrawn.

Response 3: Weaver Boos Consultants hereby withdraws our May 26, 2009 request to have License Condition 13, leak test frequency to be changed to "intervals not to exceed 12-months."

Weaver Boos will perform leak testing in accordance with the device manufacturers Sealed Source and Device Registration, (certificate of registration issued by NRC under 10 CFR 32.210).

Should you have any questions or need additional information please feel free to contact me at 616-458-8052.

Sincerely,
Weaver Boos Consultants, Inc.

Jeffrey A. Blum
Radiation Safety Officer
