TO: The Secretary of the U.S.N.R.C.

It has been brought to our attention that there are proposed rule changes that would require us to obtain a Specific License as opposed to a General License that we currently have for our lone isotope gage. We do not have the manpower, capacity or desire to obtain training for a specific license, nor will it remain profitable for us to continue to use our gage and the equipment it is associated with under the requirements for a Specific license.

It is our request to allow us to remain generally licensed.

Sincerely,

Clark Western Building Systems
Chris Jaeger
