**LEVY NUCLEAR PLANT, UNITS 1 AND 2
NRC DOCKET NOS. 52-029 AND 52-030
REPLACEMENT FAST WEB VIEWABLE FIGURE DISC**

Reference: Letter from Garry D. Miller (Progress Energy) to U.S. Nuclear Regulatory Commission, dated July 17, 2009, "Response to Supplemental Request for Additional Information Regarding the Environmental Review – Native File Figures", Serial: NPD-NRC-2009-150

Ladies and Gentlemen:

In the letter referenced above, Progress Energy provided native files for figures requested by the NRC Staff in a set of seven discs. The information provided in these discs was provided to support the NRC's review of the Levy Nuclear Plant (LNP) application, but the submittal was not intended to comply with the requirements for electronic submission in the NRC Guidance Document. Subsequently, the NRC staff has requested that we resubmit Disc 7 of 7, which provides color and black-and-white figures, burned with the option for Fast Web Viewing. This letter transmits the attached replacement Disc 7 of 7 prepared for Fast Web Viewing. Enclosed is a pre-flight report for this replacement disc.

If you have any further questions, or need additional information, please contact me at (919) 546-6992.

Sincerely,

A handwritten signature in black ink, appearing to read "Robert H. Kitchen".

Robert H. Kitchen
Manager Licensing, Nuclear Plant Development

Attachment/Enclosure

cc (w/o attached disc): Mr. Douglas Bruner, U.S. NRC Environmental Project Manager
Mr. Brian Anderson, U.S. NRC Project Manager
Ms. Michelle Moser, U.S. NRC
U.S. NRC Region II, Regional Administrator

PREFLIGHT REPORT

This table serves as a pre-flight report for the Disc 7 of 7 submittal per NPD-NRC-2009-197 in support of the LNP COLA. The following files were checked for items related to pre-flight/electronic submittal acceptance. The results of the review are shown below. For files that do not pass pre-flight, the reason for the error is provided, however all files within this submittal are deemed compliant with the NRC electronic submittal checklist as noted below. For files that do not pass pre-flight the text is word searchable and clarity/legibility is of high quality. Most of the files that do not pass pre-flight, either have photos embedded into the documents or have been rescanned and had OCR run.
