Been on the road. I will get with the MNES guru and call Susan. We double checked the files again and all was well. We are obviously doing something wrong.

The attached letter submitted the COLA Update Tracking Report Rev. 0 to the NRC today. As further explained in the letter, the Report is a method of submitting changed COLA pages to the NRC reviewers before the next revision of the COLA. Rev 0 contains editorial corrections for both the FSAR and ER, and contains technical changes to the FSAR generated as a result of the acceptance review.

Stephen Monarque also received a copy of the CD containing the Report.
